Supporting the next generation of synthetic biology innovators

WHAT IS iGEM

The iGEM foundation

International Genetically Engineered Machine

iGEM is a global non-profit organization dedicated to the establishment of synthetic biology, creating an open community based on the value of collaboration

The iGEM Competition

iGEM's biggest program is the iGEM competition. Every year, iGEM Teams that participate in the competition push the boundaries of synthetic biology and tackle everyday issues facing the world.

iGEM THESSALY

iGEM Thessaly is a multidisciplinary student research team of the University of Thessaly, participating in the international iGEM competition.

Each year, our team designs innovative, realworld solutions by combining biology, engineering, and entrepreneurship, while consistently achieving Gold Medal distinctions at the iGEM Grand Jamboree.

Through research, outreach, and collaboration, iGEM Thessaly represents academic excellence and innovation on an international stage.

WHY SUPPORT US

iGEM Thessaly is an award-winning student research team with a consistent record of excellence, achieving 7 gold medals in 7 consecutive participations since 2019 transforming real-world challenges into innovative, scalable solutions with national relevance across Greece.

With consistent Gold Medal achievements at the iGEM Competition, our team represents academic excellence, innovation, and impact on an international level.

By supporting iGEM Thessaly, sponsors directly contribute to:

- the development of cutting-edge scientific research
- the education and empowerment of young scientists
- Greece's representation at the iGEM Grand Jamboree in Paris
